

Coldwater Landscapes

Plant Type Cheat Sheet

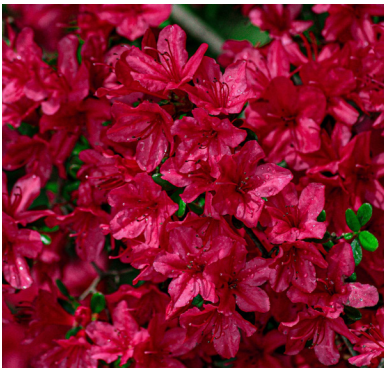

Annuals

Annuals, exemplified by vibrant Pansies, are seasonal plants that complete their life cycle in a single year.

Perennials

Perennials, like the classic Hydrangeas, return year after year, adding enduring beauty to your landscape.

Deciduous Shrubs

Deciduous Shrubs, such as the Autumn Bonfire Encore Azalea, shed their leaves each year, bringing colorful renewal.

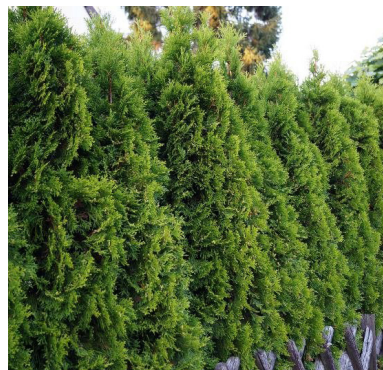

Evergreen Shrubs

Evergreen Shrubs, like Boxwoods, keep their foliage year-round, offering continuous greenery.

Deciduous Trees

Deciduous Trees, exemplified by the Crape Myrtle, lose their leaves in the fall, revealing stunning seasonal transformations.

Evergreen Trees

Evergreen Trees, like the Thuja Occidentalis, maintain their lush greenery throughout all seasons.

Ornamental Grass

Ornamental Grasses, with the Japanese Silver Grass as an example, sway gracefully in the breeze, adding texture and movement to your landscape.

Vines

Vines, such as the Clematis, climb and sprawl, enhancing vertical spaces and bringing a touch of elegance to your landscape.
